Spotted Owl, SPOW

Adult (Mexican)

Round head lacks ear tufts. Mexican Spotted Owls are the palest and they have more white on the face with larger white spots on the breast and back.

Arizona

■ Year-round ■ Breeding
■ Migration ■ Nonbreeding

Peregrin Falcon, PEFA

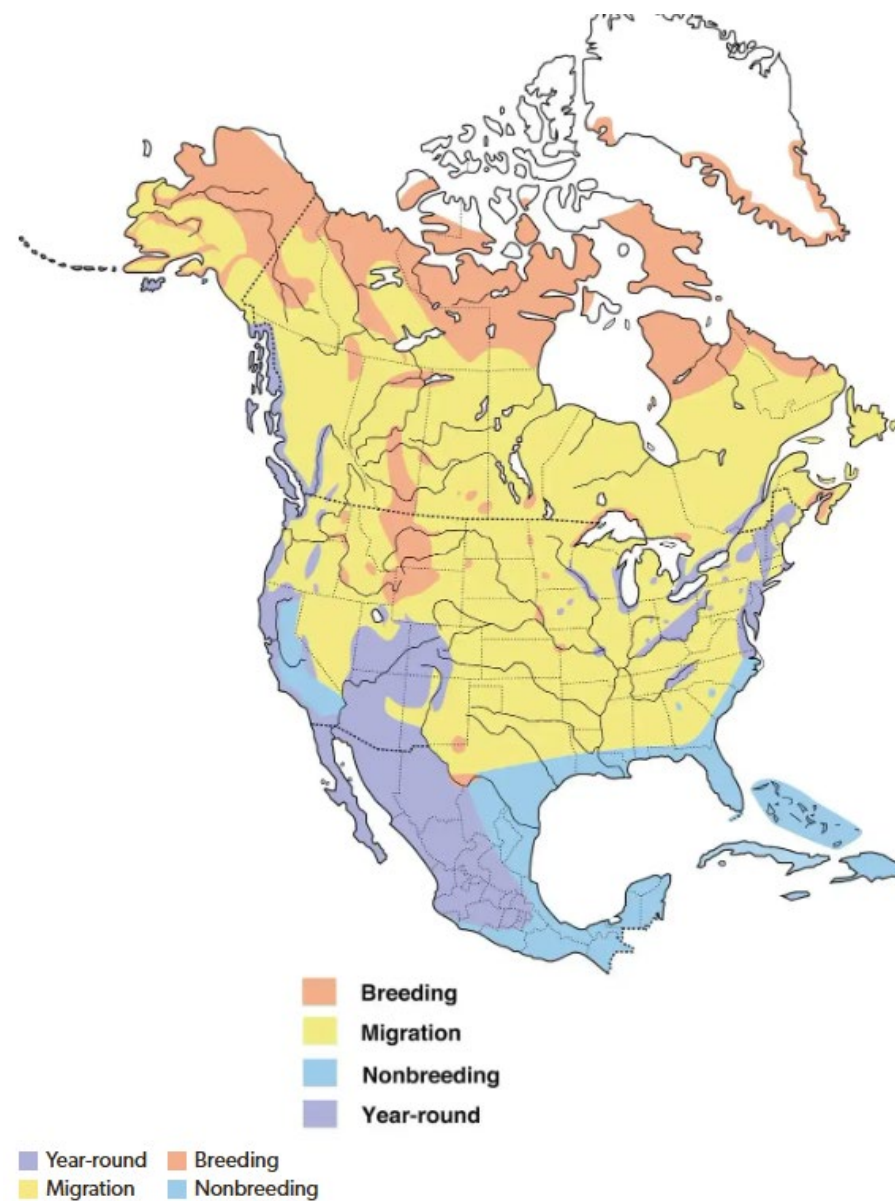

Adult

A medium-to-large falcon that occurs on every continent but Antarctica. "North American" adults have a grayish-black helmet, white breast, barred belly and flanks, and dark gray upperparts.

© Joshua Stacy / Macaulay Library

California, December 15, 2020

Ovenbird, OVEN

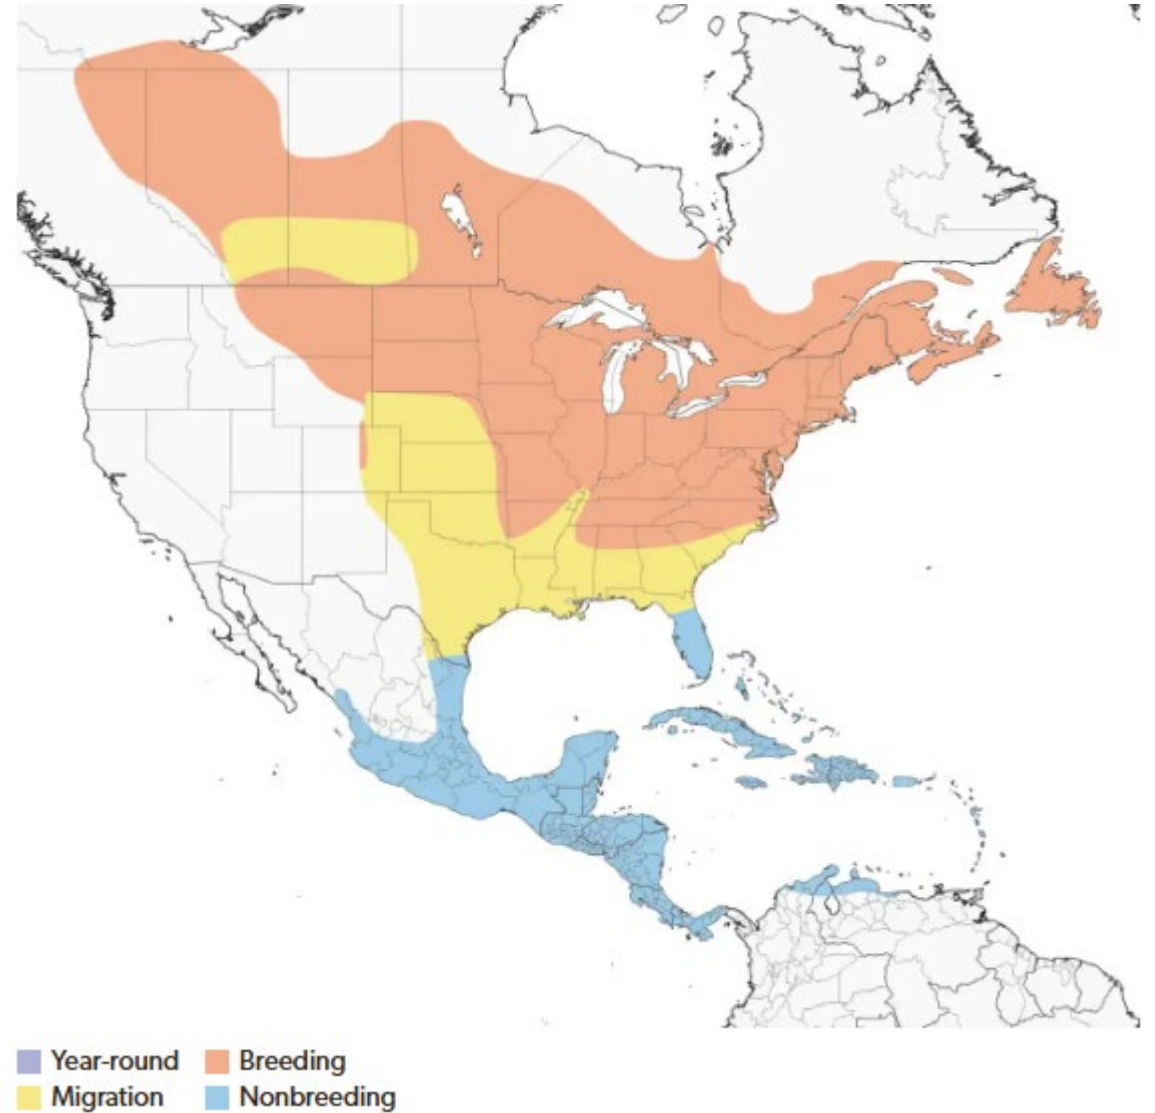

Adult

Rather chunky for a warbler with bold black spots on the chest, a white eyering, and a black and orange striped crown.

© Ryan Schain / Macaulay Library

Massachusetts, December 06, 2017

Pinon Jay, PIJA

Adult

Crestless dull blue jay with a long, pointed bill and short tail.

Colorado, April 16, 2018

■ Year-round	■ Breeding
■ Migration	■ Nonbreeding

Turkey Vulture, TUVU

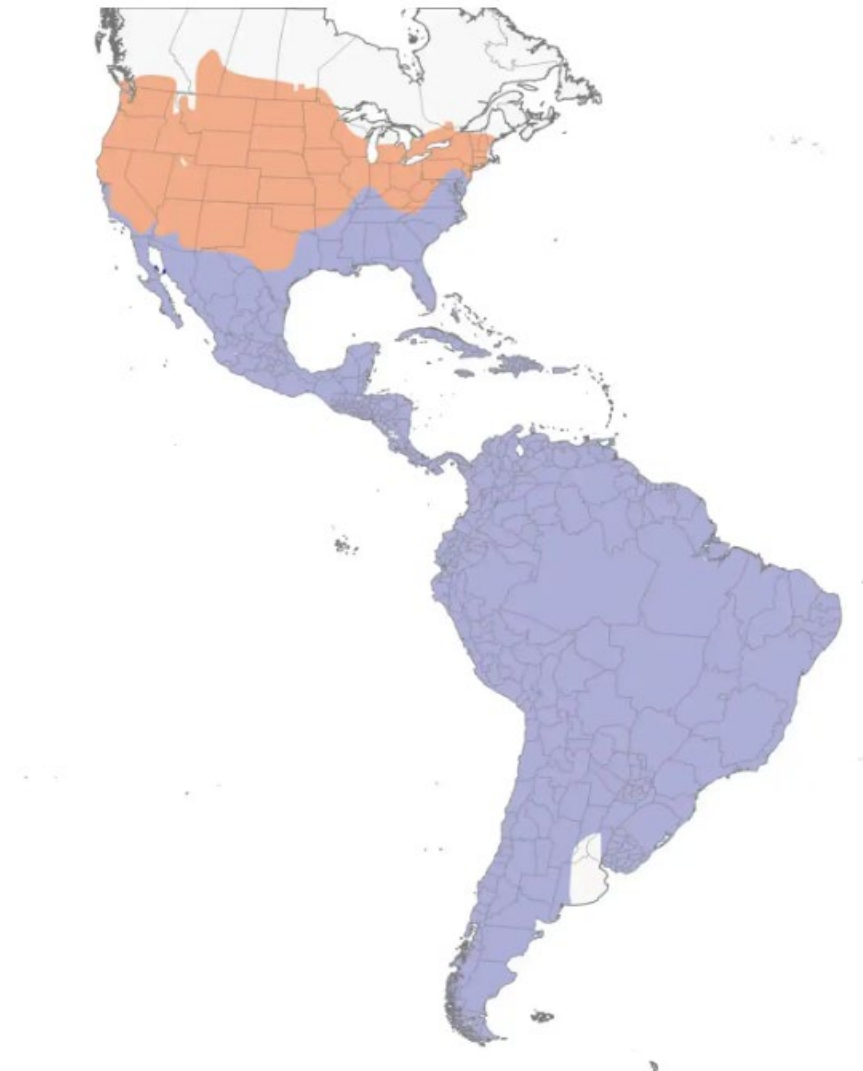

Adult (Northern)

Large with long wings. Black body contrasts with gray flight feathers and tail, and naked bright red head.

© Matt Davis / Macaulay Library

California, January 01, 2017

Year-round Breeding
Migration Nonbreeding

Wild Turkey, WITU

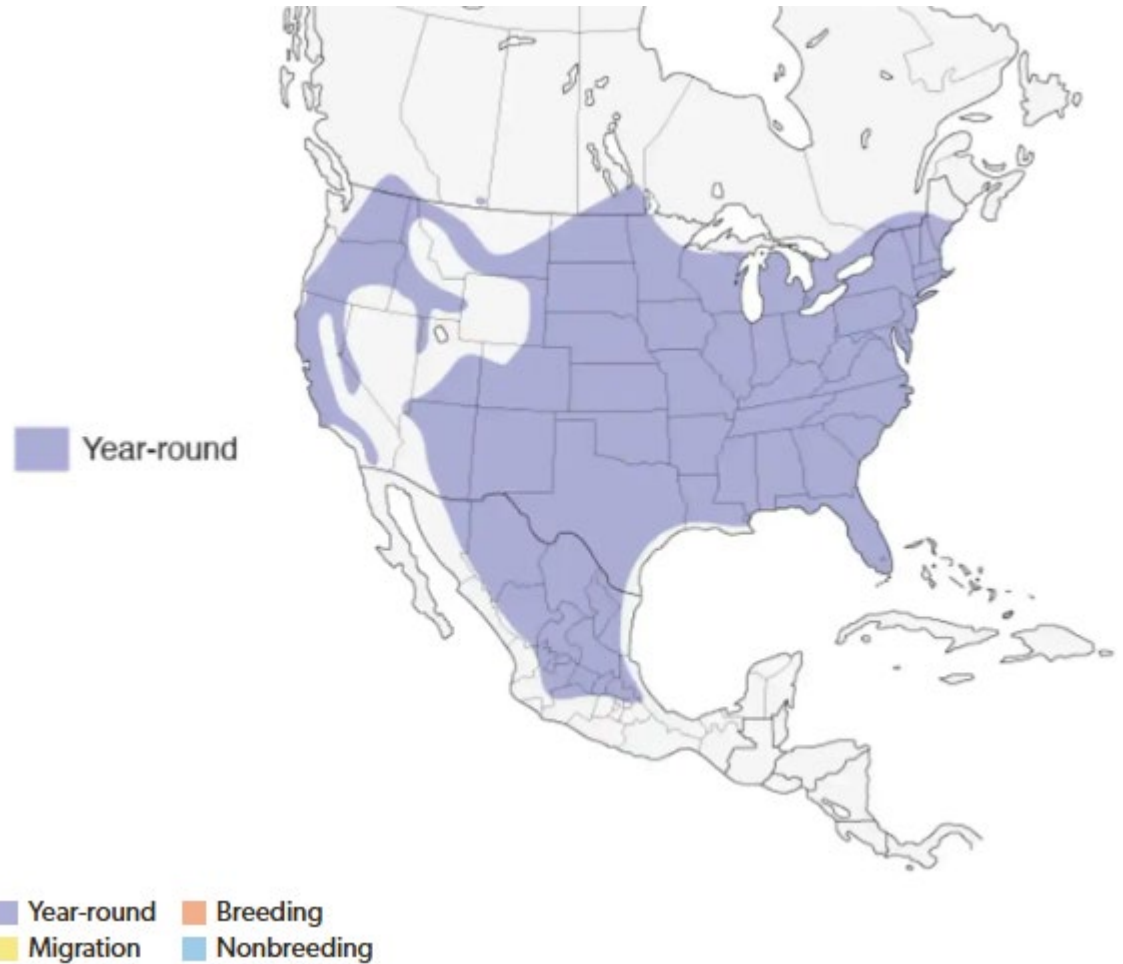

Male

Very large game bird. Displaying males look almost spherical, with naked, red-and-blue head and fanned tail.

© Petra DeBruine / Macaulay Library

Michigan, May 22, 2018

Warbling Vireo, WAVI

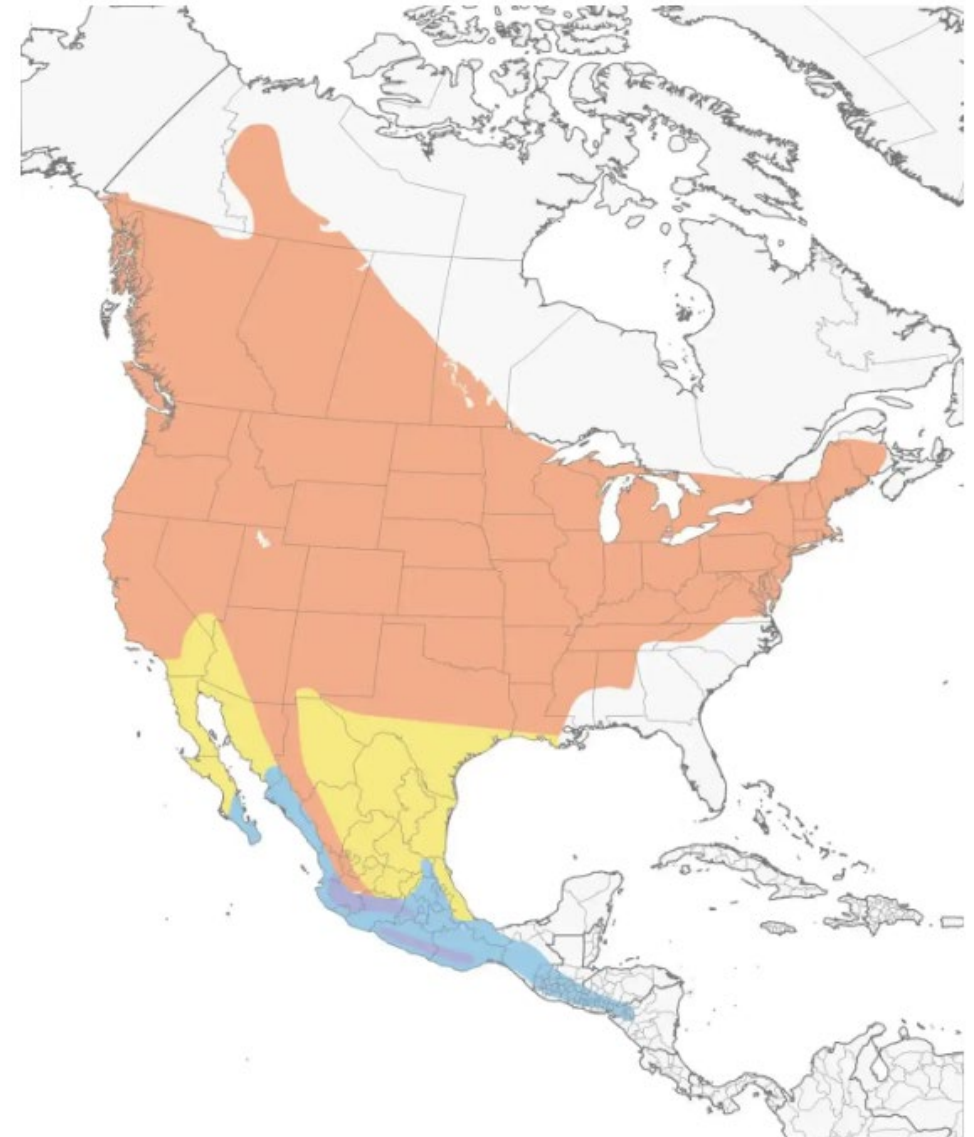

Adult (Western)

The slight yellow wash to the underparts is concentrated along the flanks instead of the center of the breast or throat, which helps to distinguish this species from Philadelphia Vireo. Visual differences between populations are slight, but this bird shows a darker gray crown typical of the Western subspecies group (*swainsoni*).

Year-round Breeding
Migration Nonbreeding

Plumbeous Vireo, PLVI

Adult

Small songbird with thick bill and slow, deliberate foraging style.
Fairly uniform grayish upperparts with white underparts; flanks sometimes washed with grayish or yellowish. Two white wingbars.

■ Year-round ■ Breeding
■ Migration ■ Nonbreeding

Black-Capped Chickadee, BCCH

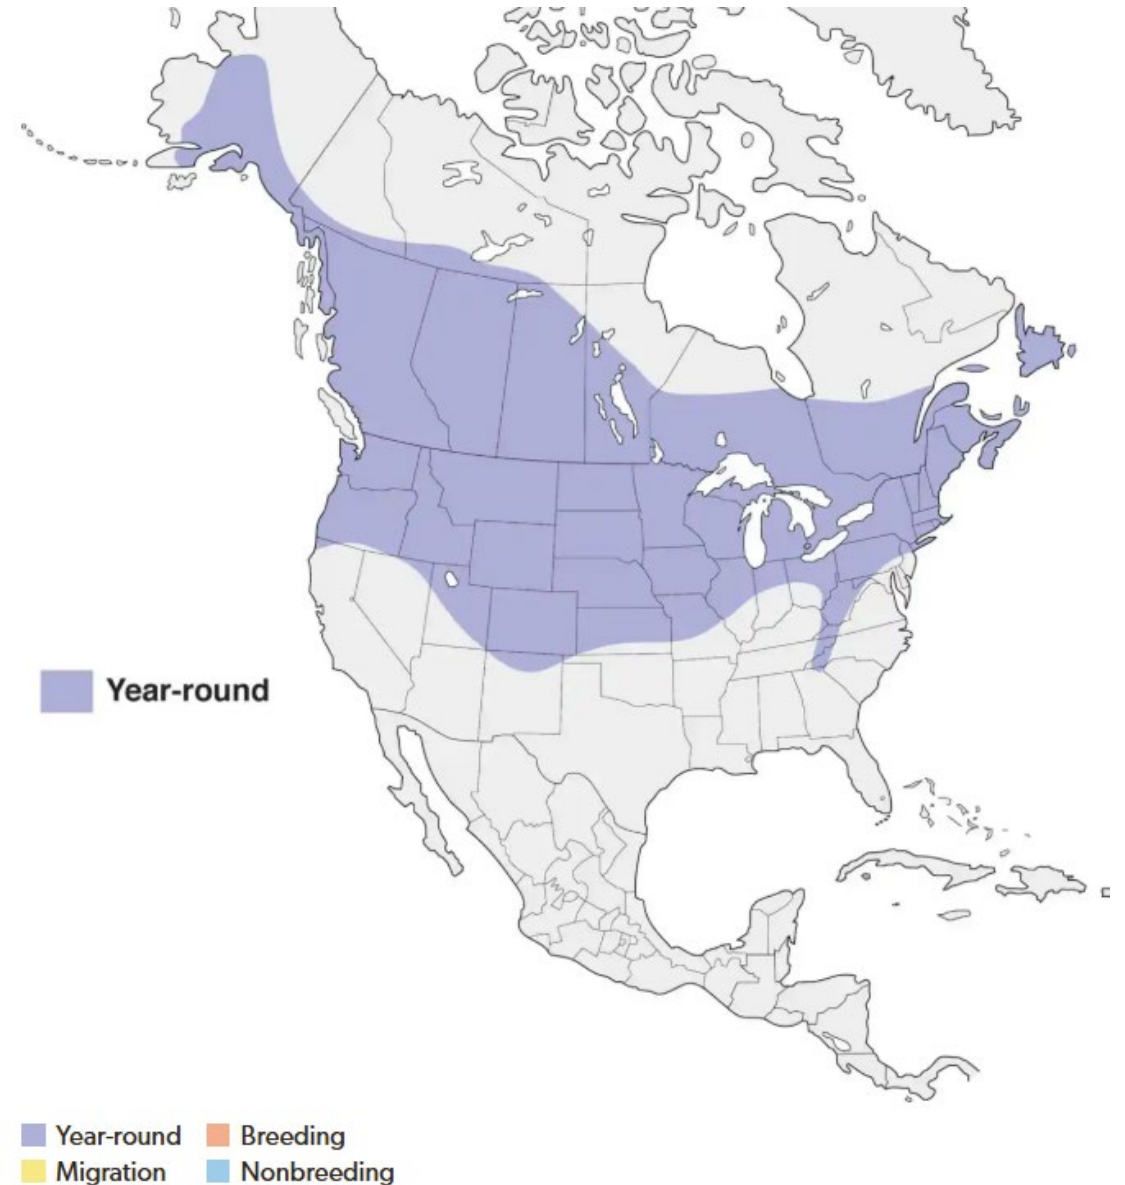

Adult

Small and compact, with a thin, short bill. Black cap and bib contrast with white cheeks, gray back and wings, and light buffy underparts.

© Scott Martin / Macaulay Library

Massachusetts, February 03, 2017

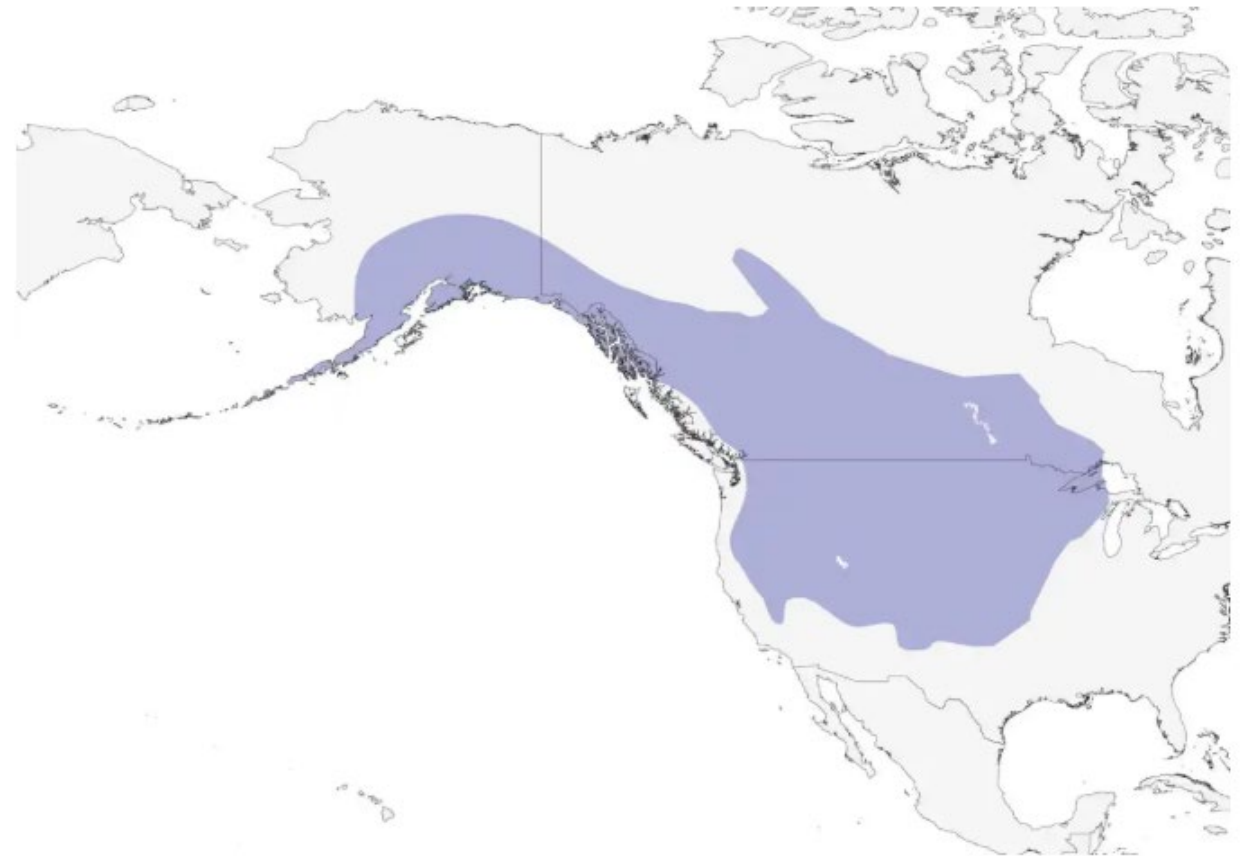

Black-billed Magpie

Jaylike bird with a long tail and a heavy bill. Appears entirely black and white, but in good light the wings and tail shine with a blue-green iridescence.
